## **DETAILED ACTION**

### ***Claim Objections***

Claim 1 is objected to because of the following informalities:

- Is unclear in which one of the hollow cavities the hollow cylinder is inserted. Therefore “the lower casing hallow cavity” should be add to line 16.
- Rearrangement of paragraph is needed wherein paragraph 5 (“a hollow cylinder, being inserted...”) should be before paragraph 4 (“ a coil, being disposed in said hallow cylinder...”).

Appropriate correction is required.

### ***Allowable Subject Matter***

The following is a statement of reasons for the indication of allowable subject matter:

The references of the Prior Art of Record fail to teach or suggest either alone or in obvious combination the limitations as set forth in claim 1, and specifically comprising a hollow cylinder, being inserted into a lower casing hallow cavity and at least one opening at its external periphery, and a printed circuit board, being coupled to said coil and disposed in said hallow cylinder, for processing and outputting said power supply for selectively charging portable electronic device and lighting up an indicating lamp.

### ***Conclusion***

This application is in condition for allowance except for the following formal matters:

- Objection to the claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
